**How to Use This Catalog**

This catalog has been designed to assist the user in finding materials several ways. There are 8 general subject sections as shown to the left. The above Table of Contents is more specific within the sections. In the back of the catalog is an author index. At the beginning of each major section is a subject or author reference column. On page 9 is a source reference guide with code descriptions identifying the source for reprinted papers. **Product codes** generally contain the first three characters of the author's last name. All product codes beginning with N refer to works of Hugh Nibley. Catalog sections begin with books, then papers and reprints, and finally audiotapes and videos. All new books have been identified. Call the number below for further assistance or ordering (8 a.m. to 5 p.m. Mountain Time).

The FARMS Catalog

The FARMS Catalog presents all of the publications that the Foundation for Ancient Research and Mormon Studies has produced on topics related to the scriptures. These books, periodicals, papers, videos, and audiotapes contain some of the best research being done by LDS scholars, and they are produced to the highest scholarly standards.

The catalog also features a large number of publications on the scriptures produced by other publishers, because FARMS believes they will be useful to students and teachers of the scriptures. A few of these publications are books for which FARMS has been involved in supporting the research or the preparation of the manuscript. A few other non-FARMS books are included that are related to the mission of FARMS—to distribute faithful, reliable scholarship on the scriptures. But the vast majority of these publications from other publishers are photocopied reprints of articles originally published in scholarly periodicals that contain useful information to enrich your study of the scriptures, even when the interpretations found in some of the articles come from a non-LDS world view.

One of the earliest projects of the Foundation, at its beginnings twenty years ago, was to distribute such reprints for the benefit of its members, and that effort continues today. These reprints are offered at the cost of locating and copying the articles, in order to distribute this information as widely as possible. FARMS members receive a twenty percent (20%) discount on most publications.

The Purpose of FARMS

The Foundation for Ancient Research and Mormon Studies (FARMS) encourages and supports research about the Book of Mormon, Another Testament of Jesus Christ, and other ancient scriptures. It also works to preserve ancient religious texts.

FARMS is a nonprofit educational foundation, affiliated with Brigham Young University. Its main research interests include ancient history, language, literature, culture, geography, politics, and law relevant to the scriptures. Although such subjects are of secondary importance when compared with the spiritual and eternal messages of the scriptures, solid research and academic perspectives can supply certain kinds of useful information, even if only tentatively, concerning many significant and interesting questions about the scriptures.

The Foundation works to make interim and final reports about this research available widely, promptly, and economically. These publications are peer reviewed to ensure that scholarly standards are met. The proceeds from the sale of these publications, including most royalties, are used to support further research and publications on the scriptures. As a service to teachers and students of the scriptures, research results are distributed both in scholarly and popular formats.

It is hoped that this information will help all interested people to "come unto Christ" (Jacob 1:7) and to understand and take more seriously these ancient witnesses of the atonement of Jesus Christ, the Son of God.
John L. Sorenson

Throughout his long career, LDS scholar John L. Sorenson has persistently pursued the question of what life was like in Book of Mormon times. His answer is given in this strikingly beautiful book. It presents:

- Over 500 photographs and drawings, selected both for their beauty and for their cultural and historical accuracy.
- Reliable scholarly information about ancient America, expressed clearly and simply.
- Connections between the images and information and what the Book of Mormon says.

Sorenson takes you on a visual tour of life in ancient America and in the Book of Mormon, a tour you won’t want to miss. You’ll see kings and commoners, houses and temples, and art and music and dance. After studying Images of Ancient America, you will read and see the Book of Mormon in entirely new ways.

Hugh Nibley
Book of Mormon Authorship Revisited: The Evidence for Ancient Origins
Noel B. Reynolds, editor

Who wrote the Book of Mormon? Members of the Church of Jesus Christ of Latter-day Saints view the book as scripture written by ancient prophets, while critics believe that it is a nineteenth-century fraud.

The essays in *Book of Mormon Authorship Revisited* present the latest research by LDS scholars on the question, demonstrating clearly that the weight of scholarly evidence is on the side of authenticity.

King Benjamin’s Speech: “That Ye May Learn Wisdom”
John W. Welch and Stephen D. Ricks, editors

This is the most substantial collection of studies ever to focus exclusively on King Benjamin’s speech. The first essay, by Elder Neal A. Maxwell, discusses the main spiritual messages and personal character of Benjamin and sees the speech as a manual for discipleship. Essays by Hugh Nibley and other LDS scholars explore Benjamin’s place in Nephite history and the qualities of the speech that make it a masterful oration and consummate work of sacred literature.

The complete text of Benjamin’s speech is presented with detailed notes, cross-references, and textual commentary. Also included is a comprehensive bibliography of LDS writings about the speech. (Audiotapes available, see p. 17.)

Rediscovering the Book of Mormon
John L. Sorenson and Melvin J. Thorne, editors

LDS scholars present exciting new discoveries about the Book of Mormon. Easy-to-read essays show meaningful and complex patterns in the Book of Mormon—patterns of style, ideas, history, and actions. They also provide considerable evidence for the authenticity of the Book of Mormon.

Some essays offer insights into the personalities and purposes of the authors and editors of the book, including the language and literary styles they use. Others consider the teachings, cultural traditions, society, and politics reflected in the Book of Mormon.

No special background is needed to appreciate these twenty-three brief essays—just a desire to rediscover the value of the Book of Mormon by learning new things about it.

In the Footsteps of Lehi: New Evidence for Lehi’s Journey across Arabia to Bountiful
Warren P. and Michaela Knoth Aston

No one has done as much to advance our understanding of Lehi’s journey as have Warren and Michaela Aston. For more than a decade they have expended time, money, and great effort in searching the remote valleys and deserts of the Arabian peninsula for candidates for locations mentioned and described in the Book of Mormon. This personal and moving account of their FARMS-sponsored efforts details their research methods and their findings and is supplemented with maps and photographs.

An Ancient American Setting for the Book of Mormon
John L. Sorenson

In this fascinating book, John L. Sorenson, professor emeritus of anthropology at BYU, presents a model for the geographical setting of the Book of Mormon in a specific area of the Americas. He cites extensive details from the Book of Mormon. Hundreds of geographical, historical, and cultural facts fall into place in his model.

The book also contains helpful maps and photographs of plausible Book of Mormon event sites and a greatly expanded and improved index.

An Ancient American Setting for the Book of Mormon is a thorough work of scholarship and a book that should be read by every serious student of the Book of Mormon.

Reexploring the Book of Mormon
John W. Welch, editor

Since 1984, FARMS has issued a steady stream of updates on Book of Mormon research. These summaries are clear, informative, brief, and to the point. Now John Welch has updated and edited these FARMS Updates into a best-selling volume that is useful to both scholars and general readers. Encapsulated here is a decade of exciting and fruitful exploration into the Book of Mormon.

Introductions place each update in context, giving the questions that stimulated the original research and the direction that subsequent research has taken. New illustrations and charts have been added to help clarify the research findings. The collection has been organized by books and chapters in the Book of Mormon to make it a useful supplement to your reading of the Book of Mormon.

The Allegory of the Olive Tree:
The Olive, the Bible, and Jacob 5
Stephen D. Ricks and John W. Welch, editors

One of the most magnificent allegories in all of sacred literature, Zenos's allegory of the olive tree in Jacob 5 is the focus of this collection of essays by LDS scholars. Originally presented at the 1992 annual FARMS symposium, these twenty-one essays by twenty LDS scholars examine the allegory of the olive tree and related topics from many perspectives, including historical, botanical, symbolic, religious, linguistic, and theological.

Zenos communicates important meaning, deep emotion, rich wisdom, and divine feeling. These essays offer answers to many questions about the olive in religious symbolism. This is truly one of the plain and precious parts of scripture restored by the Book of Mormon.

Isaiah in the Book of Mormon
Donald W. Parry and John W. Welch, editors

The essays in this book are written by some of the finest LDS scholars, who thoughtfully analyze the Isaiah passages in the Book of Mormon for the general reader. For example, in the first chapter Elder Jeffrey R. Holland helps readers see how the writings of Isaiah stand as a witness for Christ's ministry; he concludes that "more beautiful passages do not exist regarding the Savior's atonement and crucifixion." This unique book is an excellent resource for your study of the Old Testament and the Book of Mormon. (Audiotapes available, see p. 17.)

The Geography of Book of Mormon Events:
A Source Book
John L. Sorenson

Anyone dealing with the geography of the Book of Mormon cannot do without this work. Sorenson summarizes and evaluates all previous geographic models, then he analyzes all of the geographically significant information in the Book of Mormon. Finally, he offers his own purely internal map based exclusively on statements in the scriptures. Three appendices contain helpful information and discussion about ideas for further study. Reprinted in 1992.

Feasting on the Word: The Literary Testimony of the Book of Mormon

Richard Dilworth Rust

In *Feasting on the Word*, author Richard Dilworth Rust shows that the Book of Mormon is a treasury of literary riches as well as a bounteous doctrinal storehouse. The literary richness is one reason that the Book of Mormon is so pleasurable to read.

The author, Rust, shows powerfully and concretely how the Book of Mormon speaks to us intellectually, emotionally, and spiritually. With its doctrinal content so plain and precious, the book fulfills both our spiritual and our artistic longings. This interconnection of truth and goodness is explored with sensitivity and intelligence in a way that enhances our awareness and appreciation of the truth and beauty of the Book of Mormon.

The Book of Mormon Text Reformatted according to Parallelistic Patterns

Donald W. Parry

Parry has reformatted the text of the Book of Mormon so that readers can easily see the main parallel and repetitive patterns in the book. The fifty-page introduction explains the various parallel forms found in the Book of Mormon and outlines the significance of such forms in the prophetic writings. Although the work is yet preliminary, it has proven useful for both teachers and students.

From Jerusalem to Zarahemla

S. Kent Brown

While recognizing the Book of Mormon as a “marvelous work,” are we content to read and reread it without much more than a surface involvement?

In this book S. Kent Brown has made it easy for the reader to enjoy the Book of Mormon at higher levels of understanding as he brings into play Old Testament references and parallels, intriguing observations, and convincing inferences—all based on profound study. The result is not only a book of great interest, but also a more sound and more expansive knowledge of the scripture itself.

LDS Perspectives on the Dead Sea Scrolls

Donald W. Parry
and Dana M. Pike, editors

Since the 1947 discovery of ancient scrolls hidden in caves along the shores of the Dead Sea, many Latter-day Saints have been fascinated by the Dead Sea Scrolls. What do they contain? Can they tell us anything about what might be missing from our Bible? Do they help us understand what the Jews believed in the years between the end of the Old Testament and the time of Christ? How much of the full gospel was known by these people before the coming of Christ?

The essays in this book help to answer these and other questions. They give the history of the scrolls, compare the scrolls and their writers to the Book of Mormon and its authors, and discuss what the scrolls teach about several gospel topics. The collection also includes a description of how high technology is aiding in all aspects of the translation of the scrolls.
Temple of the Ancient World: Ritual and Symbolism
Donald W. Parry, editor

Three essays by Hugh Nibley, plus papers presented at the 1993 FARMS symposium, other important papers on the temple, a keynote address by Elder Marion D. Hanks (former president of the Salt Lake Temple), striking illustrations by Michael Lyon (who illustrated Nibley's Temple and Cosmos)—these features and more make Temple of the Ancient World: Ritual and Symbolism one of the most significant volumes ever published on the temple.

Twenty-four essays in this 1994 publication focus on the temple in the Hebrew Bible and ancient Near East, the New Testament, Jewish writings, and the Book of Mormon and ancient America.

By Study and Also by Faith: Essays in Honor of Hugh W. Nibley on the Occasion of His 80th Birthday
John M. Lundquist and Stephen D. Ricks, editors

This collector's set celebrates Professor Nibley's lifetime of faithful scholarship. Fifty scholars, several internationally renowned, have given their best in this Festschrift. Volume 1 deals with the Bible, the ancient Near East, early Eastern Christianity, formative Judaism, the classics, and several aspects of the temple. Volume 2 contains twenty outstanding essays on the Book of Mormon and Church history as well as modern topics.

Ancient Scrolls from the Dead Sea: Photographs and Commentary on a Unique Collection of Scrolls
M. Gerald Bradford, editor

During the fiftieth anniversary of the discovery of the Dead Sea Scrolls, FARMS and BYU hosted an exhibit of scrolls and scroll replicas, including some scrolls that had never been seen in the United States. Ancient Scrolls from the Dead Sea provides photographs of each of the nine original Dead Sea Scrolls on exhibit and commentary on each from an LDS perspective. It does the same for the three replicas of scrolls and seven photographs of scrolls that were included in the exhibit. It also gives an illustrated history of the Dead Sea Scrolls and of the fascinating journey of the nine scrolls to BYU.

Illuminating the Sermon at the Temple & Sermon on the Mount

John W. Welch

This 1999 book makes substantial additions to John Welch's 1990 book on the sermons. Jesus' masterful teachings in the Sermon on the Mount are the heart of Christianity. Yet aspects of the sermon have perplexed biblical scholars for years. Latter-day Saints believe that the resurrected Christ delivered essentially the same sermon to disciples in the Western Hemisphere. Subtle differences in the text and clear indications of context, as recorded in the Book of Mormon, provide significant clues to the meaning of the biblical text.

Welch views the New World context— at the Nephite temple at Bountiful, in connection with sacred covenant making—as the key to a deeper understanding of Jesus' sermon. In this new revision, Welch adds new evidence and interpretations that are the result of a decade of ongoing research.
The New Testament with the Joseph Smith Translation
Steven J. and Julie M. Hite, compilers

The New Testament is now available in an innovative compilation. The entire text of both the Joseph Smith Translation and the King James Version is presented for a comprehensive study of the life and teachings of the Savior. This volume contains every textual change made by the Prophet Joseph Smith, displaying both the King James and Joseph Smith versions of the New Testament.

This book is used by CES Institutes and Brigham Young University religion courses.

An Epistle from the New Testament Apostles
John W. Welch

In the pages of this unique book is found a new and surprisingly clear means of understanding the sometimes difficult words of the early apostles of Jesus Christ. An Epistle from the New Testament Apostles takes all twenty-one New Testament epistles and arranges them thematically, as if they were a single letter.

Special features in the book—subheadings to guide the reader through various themes in the text, a bookmark for easy reference, and convenient alternate readings from the ancient Greek and the Joseph Smith Translation—function to enhance the reader’s understanding of the New Testament.

Guide to the Life of Christ
Guide to Acts and the Apostles’ Letters
Richard L. Anderson

FARMS offers reprints of two important study resources for use with the New Testament. They were developed by Richard L. Anderson in his long career teaching New Testament classes at BYU. Each volume has twenty-six lessons.

Guide to the Life of Christ focuses on the Gospels, plus portions of Talmage’s Jesus the Christ that discuss Jewish customs and history. Guide to Acts and the Apostles’ Letters gives attention to the Mediterranean world and the travels of the apostles in it. Each lesson in both guides provides several pages of enrichment readings that clarify each chapter of the New Testament studied.

Investigating the Book of
Mormon Witnesses
Richard Lloyd Anderson

Who were the witnesses whose testi-
omies are published in every edition of
the Book of Mormon? Can we take their
testimonies seriously?

In this carefully researched, thought-
provoking book, Richard Lloyd
Anderson presents evidence from origi-
nal sources on each of the eleven wit-
tnesses and concludes, “Statements
clearly traced to the witnesses verify the
testimonies printed in the Book of
Mormon. . . . After years of working with
their lives and their words, I am deeply
convinced that their printed testimonies
must be taken at face value.”

The Doctrine and Covenants by Themes
Second edition, revised

John W. and Jeannie Welch

Reorganizes the text of every verse of the Doctrine and Covenants according to seven major themes to make it easier to read and understand. The themes include a voice of warning, the plan and way of salvation, revelations about scripture, the priesthood of God, church practices and commandments to members, missionary work and instructions to missionaries, statements to individuals, and the martyrdom and testimony of Joseph Smith. Tinking Cymbals and Sounding Brass: The Art of Telling Tales about Joseph Smith and Brigham Young
Hugh W. Nibley

The apostle Paul wrote to the Corinthians, "Though I speak with the tongues of men and of angels, and have not charity, I am become as sounding brass, or a tinking cymbal" (1 Corinthians 13:1). Since then, the terms "tinking cymbals" and "sounding brass" have often been used to signify words of emptiness and confusion-describing perfectly most writings critical of the Latter-day Saints.

Nibley brings his formidable training in classical rhetoric and history to bear in this study of anti-Mormon writings. This collection of lively writings from the 1940s and 1950s exposes the tendentious and faulty reasoning of nineteenth-century critics and satirizes flawed arguments against Joseph Smith and Brigham Young. In all these essays, Nibley explains and defends the life and teachings of the prophets.

The Papers of Joseph Smith
Dean C. Jessee, editor

The two volumes of The Papers of Joseph Smith consist of historical and autobiographical material; a dozen volumes of his journal; three copy books containing correspondence, revelations, and other documents; several hundred items of loose correspondence, revelations, financial records, discourses, and other writings; manuscripts pertaining to the Book of Mormon, the books of Abraham and Moses, and the Prophet’s translation of the Bible; and the manuscript of the History of the Church, which drew upon all of his other writings as sources.

Mormonism and Early Christianity

Hugh W. Nibley

From the outset of his career, Hugh Nibley has been centrally concerned with primitive Christianity, especially the shadowy period between the New Testament era proper and the emergence and triumph of the Catholic Church and Holy Roman Empire. That is the era treated in the nine essays collected in this volume. Each essay examines the close connection between the practices and doctrines of the early church and those of the Church of Jesus Christ of Latter-day Saints.

Through extensive research in the primary sources, this scholarly volume documents the loss of or change in many important doctrines of early Christianity in later centuries and their restoration in modern times.
The Collected Works of Hugh Nibley

1: Old Testament and Related Studies

This collection of papers and lectures, many of which have never before been published, includes writings on the creation, the historicity of biblical accounts, archaeology and religion, Isaiah, myths, the Dead Sea Scrolls, and ritual-related apocrypha.

2: Enoch the Prophet

In Enoch the Prophet, Nibley defends Joseph Smith’s claim to inspiration by demonstrating similarities between Old Testament pseudepigraphic literature and the Enoch section of the Book of Moses.

Drawing parallels between Enoch’s world and our own, Nibley illustrates the relevance of Enoch’s work to our time. He writes: “It is not only advisable but urgent that we begin at last to pay attention to that astonishing outpouring of ancient writings that is the peculiar blessing of our generation. Among these writings, the first and most important is the Book of Enoch.”

3: The World and the Prophets

In this collection of essays, first broadcast on radio in 1954, Nibley responds to those who challenge the right of members of the LDS Church to call themselves Christians.

He points out identities of doctrines, practices, and institutions between Latter-day Saint Christians and the early Christians. And he describes how Christ’s church changed from an organization with inspired prophets into a thoroughly different institution built upon the learning of men.

4: Mormonism and Early Christianity

The nine essays collected in this volume treat the shadowy period between the New Testament era proper and the emergence and triumph of the Catholic Church and Holy Roman Empire.

Through extensive research in the primary sources, this scholarly volume documents the loss of or change in many important doctrines of early Christianity in later centuries and their restoration in modern times.

5: Lehi in the Desert, The World of the Jaredites, There Were Jaredites

Hugh Nibley is probably still best known for the classic groundbreaking investigations into the ancient Near Eastern backgrounds of Lehi and the Jaredites contained in this volume.

Nibley’s broad knowledge of the ancient Near East and his language gifts allow him to reconstruct the probable cultural backgrounds of people like Lehi and to read between the lines in the Book of Mormon to identify evidences of their cultural world. Without Nibley’s insights, the lives of these ancients would “remain in the shadows,” as John A. Widtsoe said.

6: An Approach to the Book of Mormon

This volume was originally published in 1957 as a Melchizedek Priesthood lesson manual. Nibley compares the cultural traits of the Middle East with those described in the Book of Mormon. Joseph Fielding Smith wrote in the first edition’s preface that Nibley’s writings “will appeal to every sincere student and should be studied by every member of the Church.”

The original foreword noted: “The mystery that some writers have tried to throw around the Book of Mormon disappears and the book and its characters become real and natural.” Few other books contribute so much to our understanding of the Book of Mormon.

7: Since Cumorah

A hundred years ago, the Book of Mormon was regarded by the scholarly world as an odd text that simply did not fit their understanding of the ancient world. Since that time, however, numerous ancient records have
come to light. These discoveries have not only forced scholars to change their views of history, but they place the Book of Mormon in a new light too.

That is why, in 1967, Hugh Nibley wrote *Since Cumorah*, a literary, theological, and historical evaluation of the Book of Mormon as an ancient book. Drawing upon a multitude of Hebrew, Coptic, and early Christian texts, Nibley looks at both the background and the text of the Book of Mormon, comparing the Book of Mormon with the Bible, the Apocrypha, and records of the primitive church and related or apostate groups. *Since Cumorah* has become a standard in Book of Mormon scholarship.

8: The Prophetic
Book of Mormon

In twenty-three brilliant essays, Nibley explores the many ways in which the Book of Mormon is a true, prophetic, historical, and apocalyptic book. He treats such topics as the prophecy of Ezekiel 37, internal and external evidences of the divine origin of the Book of Mormon, literary style in the Book of Mormon, ancient temples and the Book of Mormon, and the Book of Mormon's teachings for the last days. This volume contains many penetrating insights.

9: Approaching Zion

When shall we see Zion? In 1833 the Lord told Joseph Smith, "There is even now already in store sufficient, yea, even an abundance, to redeem Zion, and establish her waste places, no more to be thrown down, were the churches, who call themselves after my name, willing to hearken to my voice" (D&C 101:75). In *Approaching Zion*, Nibley echoes this message—that the Latter-day Saints will see Zion when they stop seeking after Babylon. It also contains Nibley's essays on the uses of wealth, consecration, the Zion society, spiritual gifts, and the atonement.

N-09 655 pp., 1989 $28.95 Member $20.00

10: The Ancient State

The foibles of our age are nothing new, repeating what has been done in other eras, which makes these essays highly pertinent to our own time. One important key to understanding modern civilization is a familiarity with its ancient background. Many modern principles and practices—social, political, and even economic—have clear parallels in antiquity. A careful study of these forerunners of our traditions, particularly as they contributed to the downfall of earlier civilizations, may help us avoid some of the mistakes of our predecessors.

11: Tinkling Cymbals
and Sounding Brass:
The Art of Telling Tales About Joseph Smith and Brigham Young

Nibley brings his formidable training in classical rhetoric and history to bear in this study of anti-Mormon writings. This collection of lively writings from the 1940s and 1950s exposes the tendentious and faulty reasoning of nineteenth-century critics and satirizes flawed arguments against Joseph Smith and Brigham Young. In all these essays, Nibley explains and defends the life and teachings of the prophets.

N-11 762 pp., 1991 $29.95 Member $24.00

12: Temple and Cosmos

In this treatment of the temple and ancient temple symbolism, Nibley explores how the temple is a symbolic microcosm of relationships between this mortal life and the eternal worlds. From the beginning of time, the temple has been the link between the chaos and dissolution of this temporal world and the beauty and permanence of the eternal realms.

In *Temple and Cosmos*, Nibley explains the relationship of the House of the Lord to the cosmos. In the first part of the volume, Nibley focuses on the nature, meaning, and history of the temple. In the second part he discusses the cosmic context of the temple.

N-12 616 pp., 1992 $28.95 Member $20.75

13: Brother Brigham
Challenges the Saints

In this volume, Nibley presents reflections on Brigham Young's thoughts on politics, education, leadership, and the environment. The astonishing timeliness of Brigham's counsel to the Saints on these topics will quickly become apparent to readers. Nibley's admiration for Brigham Young is immediately evident as well. Of Brigham, Nibley says: "No man ever spoke his mind more frankly on all subjects. All his days he strove to communicate his inmost feelings. . . . There never was a man more undeviatingly consistent and rational in thought and utterance."

This book is an eye-opening and sobering invitation to reevaluate our priorities. Appropriately identified as a "vigorous wake-up call," this book will amuse, provoke, challenge, and, above all, educate.

Of All Things! Classic Quotations from Hugh Nibley
Gary Gillum, compiler

Numerous quotations from both published and unpublished writings illustrate Nibley’s wit and wisdom. These quotations provide a wonderful introduction to Nibley’s life-long effort to make sense of the things of this world and the things of eternity. Gillum has organized the quotes by themes, such as “Of the Temple,” “Of Life’s Meaning,” “Of Zion and Babylon,” “Of Education,” and “Of Our Society.” Entries include cross-references to the Collected Works of Hugh Nibley. This collection is a great way to discover why so many readers avidly follow Nibley’s work. Revised second edition.

Journal of Book of Mormon Studies

John L. Sorenson, editor

The *Journal of Book of Mormon Studies* is dedicated to the faithful and scholarly study of the text of the Book of Mormon and its historical, cultural, and theological context. New findings on the Bible and other scriptures of the restored church may also be published, especially when they relate to the Book of Mormon. This publication can be relied on for current, key information from a perspective of faith regarding all significant developments in Book of Mormon and related scholarly investigation. This journal is published two times a year.

Beginning with volume 7, the *Journal* has been redesigned with full color and beautifully illustrated articles. The larger format, abundant photographs, and clear language make this scholarly, but easily read, publication an informational treasure and visual delight. Articles include: “The Arabian Bountiful Discovered?” “How Joseph Smith Translated the Book of Mormon: Evidence from the Original Manuscript,” and “The Jewish/Nephite Lunar Calendar.”

Dead Sea Scrolls
Electronic Reference Library, Vol.II

An electronic Dead Sea Scrolls database with searchable text and associated images of the original scroll fragments has been developed by the FARMS Center for the Preservation of Ancient Religious Texts and BYU Instructional Applications Services. The CD is published by Brill Publishers but is available through FARMS to its members. The new CD greatly facilitates the process of translation and publication of this significant ancient text. This database contains almost all of the available nonbiblical material and allows scholars to do sophisticated searches and text analysis in a matter of seconds. This is a powerful tool for Dead Sea Scroll scholars and dedicated students.

What Is CPART?

For more than eighteen years, scholars and electronic experts at Brigham Young University have furnished independent support for research and publication of a growing body of LDS-related and other texts through FARMS. As a result of its remarkable contributions to the preservation and publication of the Dead Sea Scrolls on CD-ROM, and the intensified requests for its scholarly and technological capabilities, FARMS saw the necessity for a subsidiary that would specialize in projects similar to its work on the Dead Sea Scrolls.

Thus, in 1997, FARMS established the Center for the Preservation of Ancient Religious Texts (CPART). It is assigned to assist in the scholarly advancement and preservation of ancient religious materials not specifically connected to Mormonism. Through the Dead Sea Scrolls project and the Islamic Translation Series, CPART has won credibility and recognition internationally. Requests for its services in digitizing, preserving, and publishing ancient and other religious texts have been steadily increasing. CPART is dedicated to providing the world with a broader and deeper knowledge of ancient religious practices, cultures, languages, and histories.
CPART supports projects dealing with the preservations and access of ancient religious documents. One such project is the Islamic Translation Series dedicated to the publication of bilingual editions of significant works in the Arabic and Persian philosophical tradition, making them assessable to scholars, students, and the general public. The following two books are the first in this important series.

The Incoherence of the Philosophers
Al-Ghazali; Michael E. Marmura, translator

_The Incoherence of the Philosophers_ ranks among the most important works of one of the most fascinating thinkers in the history of Islam, Abu Hamid Muhammad al-Ghazali. Born in the eastern Iranian city of Tus in 450 A.H. (1058 C.E.), by his early thirties he was a pre-eminent legal scholar and teacher in Baghdad. Abandoning his academic position, he devoted himself to reattaining religious certainty through the practice of Sufi mysticism. This sophisticated philosophical work contends that, although Muslim philosophers boasted of absolutely unassailable arguments on critical matters of theology and metaphysics, they could not, in fact, deliver on their claims.

The Niche of Lights
Al-Ghazali; David Bachman, translator

_In The Niche of Lights_, al-Ghazali maintains that one who truly desires to understand the relationship between God and the world must recognize not only His distance and absolute transcendence, as emphasized in Islamic theology and jurisprudence, but also His proximity to His creation—His inherent presence. The “symbolism” of the Quran, suggests al-Ghazali, should not be thought of primarily as literary imagery, as mere similes and metaphors. On the contrary, God employs the language that He does in order to clarify the actual nature of reality. An understanding of the structure of the cosmos and of the human soul depends upon how accurately one perceives that reality.

CPART and FARMS Projects

**Petra**  
Jordan  

During 1998 researchers from BYU and CPART successfully created readable images from over 400 carbonized papyri discovered in a sixth-century Byzantine church near the famous cliffs of Petra, in Jordan. These were writings which dated from as early as 523 A.D., but when the church burned down many centuries ago these papyri were charred. However, using multispectral imaging techniques, researchers were able to make readable images. Much work remains to be done.

**Bonampak**  
Mexico  

In the lowland jungles of the Chiapas rain forest, at a site known as Bonampak, is a treasure trove of late classic Maya murals dating from 790 A.D. Since 1995, experts from Yale University, BYU, FARMS, National Geographic, and other institutions have successfully retrieved images using infrared and multispectral imaging technology. These images were “stitched” together at CPART and BYU then transferred to Yale where work on them continues.
Latter-day Christianity: Ten Basic Issues

Robert L. Millet and Noel B. Reynolds, editors

With the rapid and visible growth of the Church of Jesus Christ of Latter-day Saints, it has been inevitable that doctrinal differences have arisen between the Latter-day Saints and people of other faiths. Members of the LDS Church profess to be Christians, yet others doubt or do not understand this claim.

The contributors to Latter-day Christianity, hope that the ten essays contained in this full-color, illustrated book will help Latter-day Saints who want to explain their beliefs and be useful to people outside the LDS Church who want a simple and clear statement of those beliefs.
Mormons, Scripture, and the Ancient World: Studies in Honor of John L. Sorenson

Davis Bitton, editor

This multidisciplinary volume of essays was written by colleagues and former students of John L. Sorenson as a tribute to his lifetime of contributions to our understanding of Book of Mormon and anthropological scholarship.

The contributing authors present their original research findings on such diverse topics as nineteenth-century Mormon funeral sermons, the question of Nephite kingship, the Isaiah commentaries in the Book of Mormon, early Mormon publishing efforts in the Pacific Mission, and evidences of transoceanic diffusion in pre-Columbian times.

Expressions of Faith: Testimonies of Latter-day Saint Scholars

Susan Easton Black, editor

Twenty-four LDS scholars express their thoughts and deepest feelings on faith and scholarship. News reports have equated the words LDS scholar and LDS dissident often enough that many people now assume that most LDS scholars reject the faith. Since just the opposite is true, FARMS has published a collection of testimonies by LDS scholars to allow other voices to be heard.

This collection includes essays by Anderson, Arnold, Bennion, Bergin, Black, Bushman, Cannon, Cox, Griggs, Hafen, Holzapfel, Ludlow, Lund, Madsen, Matthews, Millet, Nibley, Parry, Peterson, Porter, Reynolds, Ricks, Rust, and Welch. This outstanding collection will inspire and instruct, as these scholars discuss how their scholarship and faith interact.

Temples of the Ancient World: Ritual and Symbolism

Donald W. Parry, editor

Three essays by Hugh Nibley, papers presented at the 1993 FARMS symposium, other important papers on the temple, a keynote address by Elder Marion D. Hanks (former President of the Salt Lake Temple), striking illustrations by Michael Lyon (who illustrated Nibley's Temple and Cosmos)—these features and more make Temples of the Ancient World: Ritual and Symbolism one of the most significant volumes ever published on the temple.

Never has one book contained so many original contributions by LDS scholars to our understanding of ancient and modern temples. The twenty-four essays in this 1994 publication focus on the temple in the Hebrew Bible and ancient Near East, the New Testament, Jewish writings, and the Book of Mormon and ancient America. Readers will gain a greater appreciation for the temples of old and come to more fully understand the temples of the present era.

A Guide to Publications on the Book of Mormon

Donald W. Parry, Jeanette W. Miller, and Sandra A. Thorne, editors

Designed primarily for students of the scriptures who are not professional scholars. A Guide to Publications on the Book of Mormon contains the same useful bibliographic information as the Comprehensive Annotated Book of Mormon Bibliography, but for a smaller number of items—the 3000+ items of most use to students of the scriptures.

The selection process has not only given A Guide to Publications on the Book of Mormon a more appropriate focus for students of the scriptures, it has also made it possible to reduce both the size and the cost of the Guide, so that it is more affordable and easier to use.

The entries selected for inclusion in the Guide to Publications on the Book of Mormon contain the same publishing information and the same annotations as those in the larger bibliography. The Guide also has the same type of extensive, valuable subject index.
